Puzzle Game

example text:
use the laws of physics
to make a ball hit
a target

Simulator

example text:
simulate the collision of
balls, customize size
and amount

Simulator Page

The simulator page features a grid background. It contains two horizontal sliders. The top slider is labeled '# of balls' and has a red slider knob positioned at approximately 25, with the number '50' written at the right end. The bottom slider is labeled 'size of balls' and has a red slider knob positioned at approximately 25, with the number '50' written at the right end. Below the sliders is a rectangular button labeled 'Start'.

↑ When start is pressed,
collision begins and menu disappears
